2021

# PARTNERSHIP GUIDE

Fairfield Community  
Health Center

## TO OUR PARTNERS:

2020 was undoubtedly one of the most difficult and unprecedented years of our lives. The impact of the Coronavirus Pandemic was felt in every industry, in every state, and in every town across the country. As a non-profit healthcare organization, Fairfield Community Health Center was not immune. Early in the Pandemic FCHC was forced to temporarily close two of our three clinic locations, suspend our extremely popular walk-in clinic hours, and rapidly implement telehealth availability to protect our staff and patients.

The FCHC team faced these unique challenges head-on, and refuse to let these new barriers impact our quality of care. Thanks to the dedication and bravery of our team, FCHC was able to serve more than 7,300 different people across nearly 25,000 visits in 2020. We orchestrated multiple pop-up Coronavirus testing days – providing free tests to over 1,000 people. We expanded our reach by adding to our Behavioral Health team and bringing on a second provider for our Baltimore Clinic.

Fairfield Community Health Center actively continued raising money for the renovation of the former South Elementary School in Lancaster, generating over \$52,000 for the project in 2020. We are in the final stages of planning for the renovation and hope to be finished with renovations within the next two years. The renovation will create a state-of-the-art Health Center that will be a tremendous health resource in the community for generations to come, allowing us to expand our reach, add additional services, and create jobs right here in our community.

Simply put: Nothing we do would be possible without your support.

As we look toward a new year and new opportunities, we need your support now more than ever. If the last year has shown us anything, it's that with the support of the community, nothing will stand in the way of Fairfield Community Health Center's mission to build a healthy community, one life at a time.

Thank you for supporting our mission, our team, and our patients.
